Why the new formulation?

The new formulation was developed in response to our customers' requests for a more concentrated CGF supplement and smaller bottle.

Ingredients

Riboflavin (SWGP):

- .05mg/ serving, 3% DV
- Also known as Vitamin B2
- Water soluble
- Important for body growth
- Assists in red blood cell production
- Helps in releasing energy from carbohydrates

❖ Riboflavin is destroyed by exposure to light.

❖ Riboflavin is a water soluble nutrient. There is no known toxicity from riboflavin.

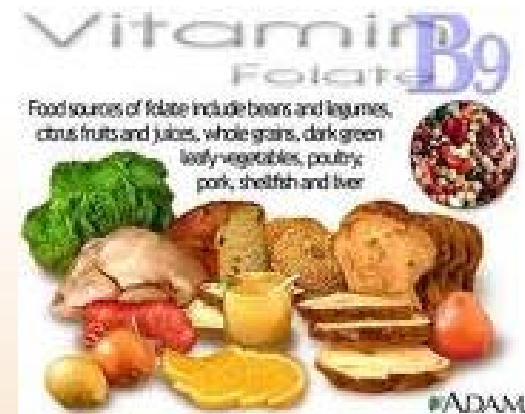

Ingredients

Folic Acid (SWGFP):

- 12 mcg/serving, 3% DV
- Also known as Vitamin B9 or Folate
- Water soluble
- Helps produce and maintain new healthy cells
- Needed to make RNA and DNA

- ❖ **Crucial for proper brain function and plays an important role in mental and emotional health.**
- ❖ **One of 8 of the B Vitamins.**
- ❖ **All B Vitamins help the body convert food (carbohydrates) into fuel (glucose), which is “burned” to produce energy.**

New Ingredient

Capsicum Extract (SWGFP):

- Proprietary Blend
- Also known as cayenne or chili pepper extract
- Aids in digestion
- No “HOTness” when consuming Capsicum Extract

Ingredients

Honey (SWHP):

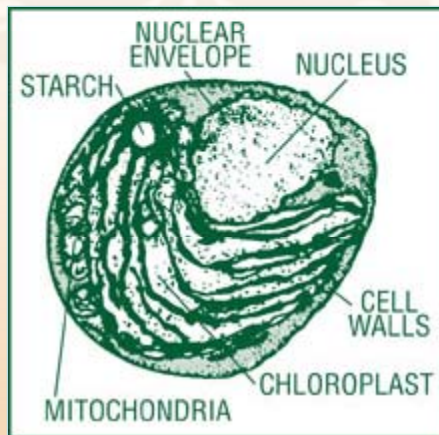

Benefits:

- Proprietary Blend
- Honey is a natural antibacterial substance
- Diabetics should use Sun Wakasa Gold Plus or consult a physician before consuming Sun Wakasa Honey Plus

Ingredients

Chlorella Extract (SWGP & SWHP): Phytonutrient

Nucleotide-Peptide complex: Helps support and strengthen your body's defense against illness and disease.

CGF (Chlorella Growth Factor): CGF are nucleic acids that are extracted from the DNA/RNA of the nucleus of pulverized chlorella. When taken, the nucleic acids help provide the DNA/RNA that our cells need to rebuild and rejuvenate healthy new cells.

RNA and DNA: These nucleic acids trigger growth and maintains tissue health by sustaining the integrity of the cells and keeping them active and youthful.

New Feature

The new cap was selected with our customers in mind. This design ensures a perfect pour every time.
